BIOGRAPHY

Peter Demos was once a wolf in sheep's clothing. While he attended church from time to time, he was so anti-Christian that he studied transcripts of the famous "Scopes Monkey Trial" to improve his ability to attack the Bible.

He also lived a life of fear, anger and emptiness.

After being radically transformed and allowing Christ to rule in his heart, Demos became a man who desires to make God the head of his home and his business ... with a passion for using his journey and his experience to help Christians practically apply the Bible to everyday life.

The author of *On the Duty of Christian Civil Disobedience* and host of *Uncommon Sense in Current Times* (streaming on Rumble and YouTube), Demos is one of the few Christian leaders today calling on American Christians to prayerfully consider how they will respond publicly, including the possibility of civil disobedience, as our nation's laws and policies increasingly come in conflict with God's Word.

Demos is CEO of a popular Nashville restaurant company, a lawyer who previously volunteered for the ACLU, the author of two books and a sought-after speaker bringing his biblical perspective and insight gained from his own struggles to guide others to truth and authenticity in a broken world.

He has been featured in numerous mainstream and faith-based media outlets, including *Newsmax*, *CBN News*, *In the Market with Janet Parshall*, *Townhall*, and *Christian Post*, sharing his personal journey and using his unique perspective to provide analysis and commentary on cultural issues and current headlines.

In a time when Christianity is increasingly under attack, Demos is uniquely equipped to help Christians understand how and when to stand firm in the truth while better understanding the rapidly changing American culture.
